

Open Source Multimedia on i.MX8 M

Recent Activities (Kernel):

- Etnaviv: per-process address spaces (better GPU client isolation)
- Etnaviv:UAPI extension to support GC7000
- i.MX8 support for Hantro Videodecoder

Recent Activities (MESA):

- GC7000 support
- largely improved shader compiler based on shared NIR infrastructure
- large number of optimizations for real-world applications (Qt5, Chromium, WPE)
- work towards OpenGL ES 3.0 support started
